15. What is SQL Injection?
16. How PreparedStatement prevents SQL Injection?
17. What is ResultSet?
18. How to retrieve data from ResultSet?
19. What is ResultSetMetaData?
20. What is DatabaseMetaData?
21. Difference execute(), executeQuery(), executeUpdate()?
22. What is Transaction?
23. What is Auto Commit?
24. What is commit()?
25. What is rollback()?
26. What is SQLException?
27. Why close JDBC resources?
28. What is try-with-resources?
29. What is Connection Pooling?
30. What is Batch Processing?

Servlet API Interview Questions (Freshers & 1 Year)

1. What is Servlet?
2. Why do we use Servlets?
3. Advantages of Servlets?
4. What is Servlet Container?

5. What is Servlet API?
6. Explain Servlet Life Cycle.
7. Purpose of init()?
8. Purpose of service()?
9. Purpose of destroy()?
10. What is GenericServlet?
11. What is HttpServlet?
12. Difference between GenericServlet and HttpServlet?
13. Difference between doGet() and doPost()?
14. What is HttpServletRequest?
15. What is HttpServletResponse?
16. What is RequestDispatcher?
17. Difference between forward() and sendRedirect()?
18. What is HttpSession?
19. What are Cookies?
20. What is URL Rewriting?
21. What is ServletConfig?
22. What is ServletContext?
23. Difference between ServletConfig and ServletContext?
24. What is @WebServlet?
25. What is web.xml?
26. What is Filter?
27. What is Listener?
28. What is JSP?
29. Difference between JSP and Servlet?
30. What is EL?
31. What is JSTL?
